### Really Little Known of Poland.

Poland's history, with its fights for freedom, justice and equality, its struggles in defense of Christianity and European civilization and its unselfishness in aiding the weak, made it famous among the world's nations, both in success and adversity. The achievements of the Polish nation in art, music, literature, science and religion are known, as are the lifedeeds of its great men.

But the industries, mines, trade and natural wealth of that unhappy country have since its partition been to a great extent a sealed book to most of the people outside of the nations attempting to assimilate the Poles. This was principally due to the inability of people from the outside to break through the network of foreign governmental systems in which Poland is enmeshed.

## STATE FAIR AUTO SHOW TO HAVE ALL 1917 MODEL

J. S. Kendall.

Director in charge of the Automobile Division of the State Fair at Texas, announces that plans for the biggest automobile show the South ever saw have been completed by the Fair management, and that the active interest and co-operation of the Texas dealers has been secured.

During the past year the Automobile Division of the State Fair at Texas, which houses the big show, has been extensively remodeled and redecorated, and its facilities have been brought right down to date, so that the 1917 show will be presented under the most favorable conditions possible.

There is no doubt but what this show will be intensely interesting to many prospective car owners through out the Southwest, as it offers practically the only opportunity the people of this section will have to see all the new 1917 models side by side, and to make comparisons of the relative values of each.

John W. Atwood, of Dallas, who is president of the Automobile Dealers Association, states that the members of that body are all actively interested in the coming show and are making extensive preparations for their exhibits and demonstration work.

It is authoritatively stated that practically all of the popular makes will be included in the big show at the State Fair of Texas, and that each will be represented by its very latest models. Trucks and commercial cars will be seen in large numbers, as well as the best of the exclusively pleasure cars.

## MANY MADE PRODUCTS

### WILL BE SEEN AT STATE FAIR

S. I. Munger.

Director in charge of the Manufacturers' Division of the State Fair at Texas, announces that the display in his section this year will be a revelation to Fair visitors, and that practically every manufacturer of any importance in the Southwest will be represented with a good and thoroughly representative exhibit.

Particular attention has been paid by the Fair management this year to the matter of securing exhibits of the products "made in Texas," and it is stated that these products will be at the Fair in overwhelming numbers. The average Texan has little or no real idea of the wonderful diversity of products made in this State, and the "Made in Texas" exhibits are expected for this reason, to be of a great deal of interest. They will include hundreds of articles which are not generally attributed to Texas manufacturers, but which are actually made here—and well made, too.

The Manufacturers' exhibits at the State Fair are always interesting. This year, because of their increased numbers, and also because of the increasing importance of Texas as a manufacturing State, they are expected to be even more so.

W. H. Stratton, secretary of the Fair Association, states that practically all the available space in the Manufacturers' Building has been contracted for, but that a few choice positions are still remaining, and that these may be secured by writing direct to the Fair Association, Dallas.

## STATE FAIR ATTRACTIONS OF NEW HIGH STANDARD

H. A. Olmsted.

Director in charge of the State Fair's department of Carnival and Musical Organizations in the country.

The F. A. Wortham Shows, considered by many to be the best carnival on the road today, will be at Fair Park throughout the period of the Fair, October 14 to 23. With this carnival are some of the best and highest priced attractions in the carnival world and these shows are sure to be of great interest to every Fair visitor.

The various musical programs, of which there will be many, will be headed by Edwin's Band. This is the organization, headed by E. F. Flavin, which won premier musical honors at the Panama-Pacific exposition, playing both the opening and closing engagements. Mr. Flavin will bring the same organization to Dallas that secured so heavily at San Francisco, and a real treat is promised music lovers of the Southwest.

The various other attractions and amusements are the very best of their kind and there is no doubt that the entertainment features of the 1917 State Fair will excel all former offerings.

## IN SPORTING CIRCLES

### HARD FIGHT APPEARS CERTAIN IN "BIG NINE"

By United Press.

Chicago, Sept. 25.—A merry fight for championship honors in the "big nine," otherwise known as the western conference, appears certain this year.

Minnesota, which was tied last year for the title, loses only four men by graduation, Chicago will have almost an entire team of veterans. Illinois will offer strong opposition, although several of last year's stars will be missing. Iowa's entry will be built around many veterans, Ohio State and Purdue, however, have sent out tales of distress, but as they rarely cut much of a figure in deciding the conference championship, their teams will be about what is expected. Cleo O'Donnell, now coach at Purdue, is expected to put a better team in the field than that which represented the Indiana college last fall. Indiana, with a team built around several of last year's stars, and with Coach Ewald O. Stehm in charge, will be the dark horse entry. Stehm had wonderful success at Nebraska university and his efforts at Indiana will be watched with more than ordinary interest. Wisconsin, with a good number of men left over, will be a strong factor in the race. Northwestern probably will offer only its usual feeble resistance.

Twelve seasoned veterans answered the call at Minnesota a few days ago when practice began. Only four players of last year's great team are definitely lost. These are Dunnigan, guard; Alquist, end; Turnquist, tackle; and Bierman, halfback. This year's lineup will show the following veterans: Bakton, end; Sinclair, guard; Hensen, center; Hauser, tackle; Long, quarterback; Johnson, Wyman, Bellen-tyne, Kieffman and Sprafka, backs. Towneley and Mayer, disqualified tackles on the 1914 eleven, may be back. They were removed last year as ineligible.

Jackson, Kahn, Gordon, Norgren, Pershing, Bondvinski, Brolet, Brody, Day, Fisher, Harper, Hawk, Knitschield, O'Connell, Shaeffer and Townley are back at Chicago. Higgins, Annan, Gemmill, Curtis, Henish, Mul-ton and Whyte are new men expected to fight hard for regular positions.

Blosker's graduation leaves a big hole in Purdue's line and Coach O'Donnell will have a great deal of trouble in filling his place.

Indiana will be the first of the "big nine" schools to get into action, a

game being scheduled for Bloomington on Sept. 30.

### Baseball in South America.

By United Press.

Washington, Sept. 25.—The baseball gospel is being carried to South America. The commercial attaché of the American legation at Lima, Peru, reported to the commerce department today that a baseball game between Americans from the Corro de Pasco mines and members of the exclusive club, Ciclista de Lima, was the big feature on the program arranged for the celebration of Peru's national holiday.

American Minister Benton McMillan, a former representative from Tennessee, and later governor of that commonwealth, opened the game by throwing the first ball. The game, "played at the foot of the Andes and in the shade of the tomb of the Inca," as the West Coast Leader phrased it, was hailed as the entering wedge for a baseball league in the southern hemisphere.

A movement is on foot in Peru and other South American countries, it is

### A Fruit-Picking Harness.

A help to the fruit picker has been devised consisting of broad straps or suspenders to which the fruit basket or pail is hung by metal hooks in front of the operator, leaving the hands free for picking. Equipped with this harness the picker goes about his task with ease, placing the fruit in the receptacle in front of him. He does not need to worry about his getting away from him, as the old pail hanging on the tree branch often did, and he can strip a tree clean of its fruit in much less time with this new contrivance.

## Something New Every Day

This is an age of many New Remedies for a multitude of ills. But the faith of thousands of sufferers from blood impurities, remains with the old reliable S. S. S. Its reputation was won by merit alone, and is retained by the same conscientious service to humanity.

The vegetable purity and superiority of S. S. S. is recognized by all who have taken it and received its benefits and recommended by them to all sufferers from blood diseases. Rheumatism, Catarrh, Malaria, and many forms of Skin Disease, are some of the blood's worst enemies—but will surely give way to the influence of S. S. S.

## Why Don't I Try Them Out?

You keep hearing all this "sensible" talk about Fatimas.

You wonder if it's true—if Fatimas really are so comfortable and sensible and so different from other cigarettes.

If all this were true, you'd switch to Fatimas for keeps.

Well—IT IS TRUE. But you won't KNOW it until you try Fatimas yourself. They'll leave you feeling better afterwards than any cigarette you ever smoked—but you must try them to prove this.

"I'm going to try them TODAY!"
